

SDF系列整形反击式破碎机

SDF Series Impact Crusher

SDF系列整形反击式破碎机是PF系列反击式破碎机的更新换代产品。该机的整机设计和制造工艺在消化吸收德国同类产品先进技术的基础上进行了创新，达到了国内领先水平。该机采用了全新的设计理念，采用模块化结构设计、CAD优化结构设计，采用有限元分析设计出优化的零、部件。

该机最大的特点是具有优异的整形功能，特别适用于高等级公路、水电、机场、建筑等行业生产优质骨料。

SDF Series Impact Crusher owns the advanced technology and good function. The crusher has come up to advanced national standards. The machine adopts completely new design conception with modularization, CAD structure and finite element to analysis and produce optimized details. The most obvious advantage is the function of shaping. It is suitable to produce aggregate.

特点及优势:

- 创新的腔形设计，产量高，具有优异的整形功能，产品形状好
- 独特的侧开门设计（≤SDF-160机型），维修及更换易损件非常方便；
- 转子采用无键联接，使用，维护非常方便；
- 模块化设计，大大减少了易损件种类。

注：此产品为专利产品，证书号：第776140号。

Features and Benefits:

- Innovational cavity design, high production, excellent function of shaping.
- The unique design of opening at side makes the repair and changing wear-parts more convenience.
- The keyless connection is need for rotors and it is easier to use and maintain.
- Modularized design to reduce the kinds of wear-parts.

Technical Data

Model	Max Feed Edge(mm)	Capacity(t/h)	Motor Power(kw)	Weight(kg)
SDF-90	250	60-100	90	10200
SDF-110	250	80-120	110	12800
SDF-132	300	100-180	132	14000
SDF-160	300	150-240	160	17840
SDF-220	450	190-300	220	27300
SDF-315	500	250-400	315	32800
