The latest mechanical design YIFAN PP Series Mobile Screening Crusher provides a high operating speed and operating flexibility. It has a high production capacity and adaptability. It not only can cooperate with YIFAN primary portable jaw crushers, but also can be used alone as the three kinds of particle size of aggregate classification of the screening machine. Mobile screening crusher makes use of wheel loader, excavator or belt conveyor to feed materials. Because of different screening materials, the screening volume can achieve 50—105t/h.

## Features and Benefits

1. Be equipped with high-performance screening box;
2. Automated screening movement and control, maximum screening rate
3. Strictly managing all operating units, improving product life time and reliability.
4. The features of low noise and low emissions.
